MAINTAIN YOUR PIZZA OVEN

A QUICK GUIDE TO CARING FOR YOUR PIZZA OVEN.

---

①

Allow the attachment and pizza stone to cool completely before removing or cleaning.

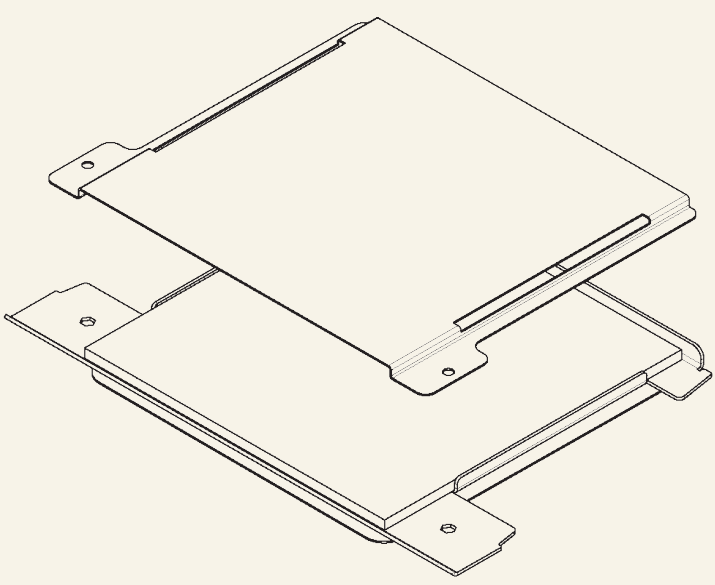

Gently scrape away food residue with a suitable stone brush or plastic scraper. Wipe with a lightly damp cloth if needed, then allow the stone to dry completely before its next use.

Never submerge the stone in water or use soap, detergents or chemicals.

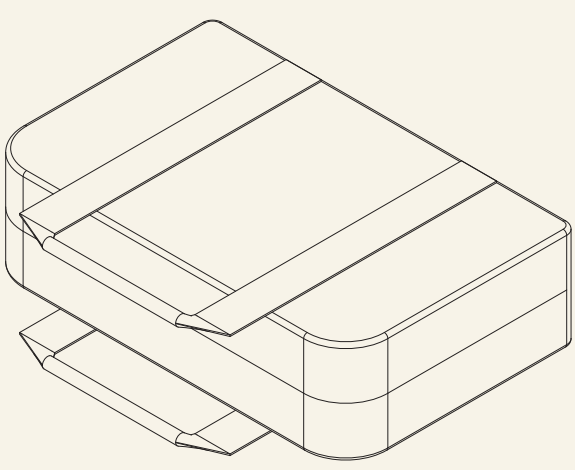

Handle with care. Avoid dropping or knocking the stone, and do not use it if chipped or cracked.

Never place a hot stone on a cold or wet surface, or expose it to cold water. Sudden temperature changes may cause cracking.

Store the stone clean and completely dry. Use suitable heat-resistant gloves when handling hot components.

REFIT THE STAINLESS STEEL PROTECTIVE COVER.

PACK ALL COMPONENTS, INCLUDING BOTH STAINLESS STEEL HANDLES, INTO THE CANVAS CARRY BAG.
